

UTM
UNIVERSITI TEKNOLOGI MALAYSIA

Faculty of Electrical Engineering

**VACANCIES FOR THE POSITION OF LECTURERS OF MANUFACTURING
AUTOMATION
AT THE FACULTY OF ELECTRICAL ENGINEERING,
UNIVERSITI TEKNOLOGI MALAYSIA**

We invite applicants with excellent education and research experience in the area of industrial manufacturing automation for the above positions.

Applicants should have a recognized PhD degree in Electrical & Electronics Engineering, and should be able to teach undergraduate and postgraduate courses in Control and Mechatronics Engineering field, particularly in the area of industrial manufacturing automation. He or she should be able to supervise research at the postgraduate level, and has the necessary knowledge and skills in teaching manufacturing automation at the postgraduate level.

Preference will be for Malaysian citizens.

PhD students currently at the final stage of completing their PhD thesis are encouraged to apply.

Successful applicants are expected to adopt a teaching methodology that entails a mixture of lectures, case studies, problem solving, and presentation, particularly at the postgraduate level. Candidates should demonstrate potential and interest to conduct research in the various fields of manufacturing processes, machine automation, automated manufacturing system, computer aided design and manufacturing, and mechanical or electrical engineering design.

Candidates should submit a current CV, copies of publication (if any), description of courses taught (if any) and 2 letters of recommendation to the following address:
